Aug 2018 – July 2022

Btech in Information Technology

- **Percentage:** 74.8 %
- **Coursework:** Data Structures & Algorithm, Object Oriented Programming, Database Management System

EXPERIENCE

Senior Software Engineer

Noida, India

GlobalLogic India Pvt. Ltd.

July 2024 – Present

- Developed a feature that allows users to get a new connection using an existing device, referred to as "Bring Your Own Device."
- Enhanced the grid wall page to display available offers directly on the card itself.
- I have also worked on Scalability and Performance optimisation of the web applications by refactoring the existing code base and other optimisation techniques.

Software Engineer

Noida, India

GlobalLogic India Pvt. Ltd.

July 2022 – July 2024

- As a front-end developer, I have developed major features / functionalities, which includes development of a new page in the existing application using JavaScript.
- I have implemented web accessibility to the existing pages of the application as well as developed new pages using best practices of accessibility as per WCAG guidelines.
- One of my key contribution to the project was, Migration of a multi-page application into a single-page application using ReactJS. The existing web application was using knockoutJS.

PROJECTS

Job-Seekers Portal:

[Repo](#) 

- Applicants can register or log into their accounts to apply for jobs, save them for later, and view their application history while maintaining their profiles.
- Recruiters can also register or log in, allowing them to create, update, and delete job postings.
- Additionally, recruiters can check how many users have applied for each job through the admin panel.
- Tools Used: ReactJS, ReduxJS toolkit, Firebase, Bootstrap

TECHNOLOGIES

Languages: JavaScript, HTML, CSS, Core Java, SQL,

Technologies: ReactJS, ReduxJS, KnockoutJS, Bootstrap, RestAPI, Node.js, Express.js, NextJS, MongoDB

Tools: NVDA, Wave Accessibility Tool, Jira, VS Code, Github Copilot, Git, Glassbox, Postman

ACHIEVEMENTS

Spotlight Award from GlobalLogic: Received Spotlight award for my hard-work and contribution towards the project.

POC received client approval for implementation: To address load time and debugging issues with the existing KnockoutJS framework, I developed a proof of concept (POC) for replacing it with ReactJS. This POC received client approval for further implementation.

Fast-track Promotion: I received a fast-track promotion in recognition of my exceptional performance, reflecting my dedication, contributions to the project, and commitment to delivering high-quality work.
